CD NO.

DATE DISTR. 5 June 1950

NO. OF PAGES

NO. OF ENCLS. 1 (89 pages)  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO.           

25X1A

COUNTRY Germany (Russian Zone)

SUBJECT OSW Spectrum Analyzer 2046a

PLACE  
ACQUIRED [REDACTED] 25X1A

DATE OF INFO  
ACQUIRED

25X1A

1. Inclosed are photostated copies of the blueprint of the spectrum analyzer OSW 2046 a. They are sent to you for retention.
2. The spectrum analyzer 2046a is an improved model of the spectrum analyzer 2046 of which all blueprints and a test model were sent to Russia. Later the Russians requested the OSW to build six spectrum analyzers. When asked for the blueprints, the Russians were evasive and eventually the engineers at the OSW had to reconstruct the spectrum analyzer, since it seemed unlikely that the Russians would ever return the blueprints.

25X1X

Comment: One model of a spectrum analyzer, Type OSW 2058, was constructed and flown to Russia.
